

My wife and I could not believe or understand how CBS or anyone else would think that we wanted or deserved to be involved in a "super bowl " half-time show that is shown all over the world when a pornographic display of Jackson's breast is supposed to to entertainment ? We want something done about this act, either she (Jackson) is a victim of a sexual assault or she and the male is involved in this tasteless and very disturbing act, we have two granddaughters and we are extremely upset and mad !!! we would like to know what if anything is FINALLY done about this incident, please forward the final outcome to our e mail address.
